

HAVE NOT MADE GREAT COMBINE

Standard Oil People Deny Story of Big Trust Combination.

IS NO EXCITEMENT

Rumor Fails To Cause Excitement in Wall Street Prices.

THE REPORT IS FALSE

(Special By Scripps-Mellae.) New York, July 30.—The Standard Oil Company today made an emphatic denial of the story printed in the London Mail to the effect that the three monster oil interests of Rockefeller, Rothschild and Nobel had combined to control the world's supply of oil.

Pure Fabrication
The story is characterized as an invention made to hurt the interests of the Standard Oil company, with no truth in the whole report. They disclaim any desire to control the world's supply of oil.

Not Credited
On Wall street this morning little faith was placed in the rumor although many admitted that the three companies were very friendly.

CHURCH SETTLEMENT RENOUNCED BY CUBANS

United States May Have to Intervene to Protect Agreement With Catholic Authorities.

Washington, July 30.—Information has reached the state department from Minister Squiers at Havana that the lower house of the Cuban congress has adopted a resolution declaring that the settlement made by the United States with the Catholic church respecting church property in the island need not be considered as binding on the Cuban government nor on the church.

The information also is that President Palma and his friends did all they could to prevent the adoption of the resolution. This activity, it is represented, has produced a crisis in the cabinet.

The news is disturbing for the reason that the faith of the United States is pledged to the fulfillment of the agreement. If the senate adopts the resolution the United States doubtless will intervene. The right to do so under such circumstances is plainly set forth in the Platt amendment. Officials here pronounce the situation critical.

PROTECT A PRISONER FROM WESTVILLE MOB

County Authorities Remove William Tolton, Alleged Wife Murderer, to La Porte Prison.

La Porte, Ind., July 30.—William Tolton of Westville was brought to the county jail here to protect him from lynchers. A mob surrounded the Westville calaboose, where he lay, thirsting for his life, but lacking leadership to carry out its threat of vengeance.

Tolton is charged with the murder of his wife, who disappeared on Monday. He declares he bought a ticket Sunday evening for her to go to Chicago and that she left on the Wabash train at 5 o'clock Monday morning. He says she was the only woman passenger that morning.

Tolton is said to have made many threats to kill his wife and frequently to have maltreated her. It is charged that within a few days he drew a revolver and threatened to shoot her.

MAY REFUSE DOCTOR'S LICENSE

Appellate Court Sustains State Board of Health.

Springfield, Ill., July 30.—The board of health has won in the appellate court in the case of Millard F. Bailey, a graduate of the medical department of the University of Tennessee in 1894, when the board declined to issue a certificate based on his diploma because the board had determined that the college was not in good standing during the year named. The appellate court holds that the state board of health is possessed of discretionary power to determine whether a medical college is in "good standing" and its action is not subject to review by mandamus proceedings.

Traction Company Incorporates.
Columbus, O., July 30.—The Cincinnati & Northeastern Traction company of Dayton has been incorporated with \$15,000 capital stock. It is proposed to construct an electric road between Cincinnati and Dayton.

BRYAN'S SPEECHES AID REPUBLICANS

Chairman Babcock Says That All His Speeches Benefit the Cause.

Washington, July 30.—(Special.)—Representative Babcock, chairman of the Republican congressional committee was in Washington for a few hours today, and during his stay expressed the utmost confidence of republican success during the coming campaign. He does not believe this success will be attained without hard work, which he says his committee and the republicans generally are ready to perform.

Does Good
"Col. Bryan's visit to the east has done us a great deal of good," said Mr. Babcock. "I trust he will call often in this part of the country. He succeeded admirably in raising the old specter of free silver, which some of his colleagues hoped had been buried. Democratic efforts to harmonize have benefitted us greatly. I hope they will continue, as with every move on their part our chances of success increase. The appeals for harmony by ex-President Cleveland and David B. Hill threatened a movement which promised to alienate from us some of the gold democratic vote which we received during the last three campaigns. For a time it appeared as if some of this vote would fall back into line on the congressional ticket and vote for the candidates nominated by the democracy. This fear is now entirely dispelled."

Bryan's Letter
"Mr. Bryan's letter following Mr. Cleveland's address before the Tilden club opened the eyes of the eastern democrats to the true situation in the democratic party and to the fact that the old Chicago and Kansas City crowd is still in the saddle and determined to dictate to the democracy of the country. With that realization the former democrats who lately have stood with the party of sound money and prosperity will continue to lend their support to the republican candidates for congress, in my judgment."

Karl Gruenert, a German manufacturer and bank agent of Chicago was brought back from Iowa where he had fled. He confessed to the embezzlement of \$26,000.

Fifteen firemen and two citizens who were hemmed in by fire and smoke in the McCormick Reaper Co's Chicago warehouse were saved from suffocation by truck company No. 12.

A Chicago strike epidemic has arisen among the employees of drug stores and hotels; errand boys of the former quit, started riots, and then resumed work; the hotel bell boys formed a union.

SAMAR NATIVES ARE UNEASY

Because Their Choice for Governor Was Not Inaugurated.

WRIGHT IS FIRM

Sticks to His Choice, and Installs Him in His Office.

MAY YET BE TROUBLE

(Special By Scripps-Mellae.) Washington, D. C., July 30.—Advices from Samar report that the natives are on the verge of an outbreak owing to the actions of Governor Wright. They threaten trouble and talk of uprising against the government established there.

Want Their Governor
The trouble seems centered at Catbalogan, Llorente, where the governor's residence is located. The natives are angry that Wright has been made governor in place of Former Insurgent General Guevarra.

Want Weaken
Despite the requests of the leaders of the native party Governor Wright would not weaken and had Llorente inaugurated. He is being supported by the troops stationed on the island.

PREMATURE BLAST INJURED WORKMEN

Rapid Transit Subway Has an Explosion That Injures Two Men.

New York, July 30.—(Special.)—As the result of a premature blast in the rapid transit subway on Park avenue at Forty-first street today, four men were seriously hurt two of whom it is thought will die. This is the unlucky section of the tunnel, in which a number of accidents have occurred. In the last one previous Maj. Ira Shaler, one of the contractors, received injuries which resulted in his death some days later. No damage was done to the property today. An investigation by the police disclosed that the blast was properly protected, but that the men did not retire a safe distance when it was fired.

ACCIDENT DELAYS TEST OF GUNS

Breech Block Defective and Practice Is Delayed Until It Is Repaired.

Sandy Hook, July 30.—(Special.)—A serious hitch in the firing of a ten inch gun at Fort Wright, yesterday has temporarily upset the plans of the gun carriage board. The test of the ten inch gun was to afford information for a comparison with the ten inch fired at Sandy Hook on Monday. The first ten rounds of today's firing went off nicely, though the breech block stuck slightly. The trouble was with the gas check pad in the breech block, and though a new one was put in the gun continued to work badly, and at the twenty-sixth round orders had to be given to cease firing, as it was almost impossible to screw the breech block home.

CARY RESIGNS HIS POSITION

W. Walker of Whitewater, Has Been Named as His Successor.

Madison, July 30.—(Special.)—The State Board of Control today accepted the resignation of C. P. Cary as Supt. of the school for deaf at Delavan, to take effect Sept. 1, he having become the Republican candidate for Supt. of Education and tendered the place to W. Walker, who for six years has been a professor in the Normal school at Whitewater. Prof. Walker is as yet undecided as to whether he will accept. The salary at Delavan is \$2,000 and subsistence, while his present compensation amounts to about \$2,700.

Omaha, Neb., July 30.—E. C. Barton of Chicago closed a contract with the Union Pacific railroad whereby he becomes the owner of 30,000 acres of land in Arapahoe county, Colo., and Thomas and Logan counties, Kansas.

BOLIVIAN GRANT MAY BRING CLASH

Brazil, Bolivia, United States and England May All Be Mixed Up.

New York, July 30.—(Special.)—Efforts made by the United States to bring about a settlement of the differences between Brazil and Bolivia over the disputed territory of Acre have not met with success, and the situation is more serious than ever. It was believed at one time that there was some hope that Brazil would recognize the validity of the concession to exploit Acre, granted by Bolivia to the Anglo-American syndicate, in which Sir Martin Conway, the Belmonts, Emlyn Roosevelt, the president's cousin, and other financiers are interested, but this proved to be without foundation, as Brazil has declined, in terms regarded as positive, to take that course.

Complications
The matter has reached a point where there is great danger of international complications, not only between Brazil and Bolivia, but involving the United States and Great Britain. This should not be taken to mean that the United States government intends to take part in a quarrel between two South American republics. The danger lies in the fact that the syndicate regards its concession from Bolivia as valid, and may attempt to assert its claims in the disputed area. In such an event this government might be obliged to take action for the protection of the American citizens in the venture, which would give offense to Brazil. Assurances have been given to Brazil, however, that the United States will not interfere in the boundary dispute between that country and Bolivia.

Acre Trouble
The Acre controversy is regarded here as the question of the greatest international importance. The government evidently intends to exercise extreme caution in dealing with the matter, and while willing to use its best diplomatic endeavors in behalf of the American citizens who are interested in the enterprise, to avoid giving the slightest offense to either of the Latin American countries concerned.

STATE NOTES

The three-year-old son of Michael Hansen of Cudahy was drowned in a cistern.

Walter McCool of Monroe took a dose of carbolic acid by mistake and died in two hours.

BARS IMMIGRANTS FROM UNITED STATES

Commissioner Sargent Issues Orders Against Men Coming to Take Place of Striking Miners.

Washington, July 30.—The commissioner general of Immigration, Frank P. Sargent, has issued two orders intended to keep undesirable immigrants out of the United States.

One of these was in the case of a party of Slovaks who arrived in Baltimore with the intention of going to work in the Pennsylvania coal fields. The commissioner held that the men had received promise of employment before they left their homes and therefore their admission would be a violation of the contract labor law.

Mr. Sargent sent instructions to immigration officials to exclude several alleged anarchists who recently were expelled from Turkey if upon examination it was found that the charges against them were substantiated. Accompanying the instructions were photographs of the suspects to aid in their identification.

The machinery now in use in Newman's factory may not be as good as that in the Marzluft factory, but in ten years there will not be much difference. He would be willing to chance Newman for as much as he did Marzluft. The people were depending entirely upon the man and if he failed the people would lose their money. TO INVESTIGATE MORE FULLY

Business Men Hear Mr. Norcross' Report on Shoe Factory.

WILL NOT HURRY

Decide to Send a Committee to Chicago To Look Over Prospects.

IN FAVOR OF PLAN

The Janesville Business Men's association will make a further investigation of the G. E. Newman shoe factory before making any move towards raising the \$15,000 which he desired to borrow to move his factory to this city. While they think the proposition a good one they wish to look up the business from another standpoint and see what the future has in store for the factory, if possible. The committee will visit Chicago and take the matter up with the wholesale houses that handle the goods and get their opinion.

Was Spokesman
Captain Norcross acted as spokesman for the committee appointed at the last meeting of the association to look up the proposition made by Mr. Newman. He had made the trip to Rochester and would give the result of his investigations. As for the factory he did not find quite as much as he expected but found more of a man.

Not Large
The factory at Rochester was 120x32, with the side buildings used for storing stock. It was built on a first-class site in a prosperous little town. The factory was first built by the citizens of Rochester and proved a losing investment. It went in to the hands of a receiver and finally Mr. Newman, acting as attorney for the machine men, got possession of the plant. When he took possession of it, the plant was some \$30,000 in debt and the receiver had gone on making shoes until he had piled up 2,000 pairs. Newman disposed of this stock and succeeded in running the factory so successfully, that in a matter of two years he has reduced the indebtedness almost one half.

List of Machinery
The list of the machinery in use in the factory at the present time as made out by the bookkeeper, was: Fitting room, 93 machines; 70 of them being sewing machines; stock room, 28 machines of different kinds; buttoning room, 60; cutting room, 43. The machines were not all modern but were in a first-class state of repair.

\$24,000 Value
The estimate of the value of the plant as given by Mr. Norcross was: All machinery, excluding the engine and boiler was \$25,991.63; bills receivable, \$2,000; lasts, dies and stock, \$10,000. The buildings, including the engine and boiler cost \$8,133.11. These would have to be sacrificed if he moved to this city, and taking out what Newman owed from his assets as near as the committee could figure it he would have from twenty-two to twenty-four thousand dollars left.

Number Employed
The pay roll on April 25 showed 132 hands at work, while on July 10, only 72 were working, which is accounted for by the fact that they were getting out samples at the time and a large force was not necessary.

There Are Others
Janesville is not the only town that wants the factory. Mr. Newman had offers from six other cities to come to their towns and locate. He stated to Mr. Norcross that he liked Janesville and wished to come here if possible.

Captain Norcross stated to the association that the factory was not quite what he expected but that he was surprised in the man. He had gone out of a law office into a shoe factory, a business he knew nothing about, and had made a success of it and he was satisfied that he could keep it up. The report was received and placed on file.

Talk Follows
C. S. Jackson could not see why it was not just as good a proposition as the one made by F. M. Marzluft, who put up \$25,000 and borrowed \$25,000. In this case Newman is putting up \$25,000 and borrowing \$15,000. IOWA REPUBLICANS FIX UP PLATFORM

INDORSEMENT FOR ROOSEVELT

Convention Likely to Show Approval of Reciprocity and Will Take a Rap at the Trusts—Contests on for Minor Places.

Des Moines, Ia., July 30.—Discussion over the platform to be adopted by the Republican convention was kept up all day yesterday. The indications are that when the resolutions committee meets the differences, if there are any, will be adjusted amicably.

Several prospective members of the resolutions committee have been in conference with Senator Allison and Speaker Henderson and the matter is understood to be settled.

It became evident that it would be impossible to defeat the reaffirmation of the platform of last year at the Cedar Rapids convention and an agreement was reached to that end.

A small faction of the party wished to strike out the plank favoring withdrawal of the tariff from those products in control of trusts. They insisted that this was equivalent to pleading guilty to the Democratic charge that the Republican tariff was the mother of the trusts.

Will Indorse Roosevelt.

Governor Cummins and the state administration stood for the retention of the language in the platform and were successful. Senator Allison and members of the Iowa congressional delegation agreeing to the declaration. This was the only fight on resolutions.

The platform will declare strongly in favor of reciprocity and the declaration against trusts will be equally strong. Roosevelt will be indorsed strongly and he may be indorsed for renomination in 1904.

Congressman Walter I. Smith of Council Bluffs is the temporary chairman of the convention.

No opposition exists to the renomination of Secretary of State Martin. Treasurer Gilbertson, Attorney General Mullen or Supreme Judges Ladd and Bishop. The withdrawal of Amos Brandt of Des Moines leaves a clear field for B. P. Carroll for auditor of state.

Candidates for Office.

For court reporter—B. L. Salinger, of Manning, candidate for renomination; W. W. Cornwall of Spencer and J. H. Williams of Ames.

For railroad commissioner—E. A. Dawson of Waverly, candidate for renomination; N. A. Kethum of Marshalltown, W. D. Blackmore of Crawford and R. W. Smith of Fort Madison.

For supreme court clerk—C. T. Jones, a candidate for renomination; J. W. Whelan of Red Oak, C. N. Neal of Davenport, M. A. Buchan of Grundy Center and M. L. Bosquet of Knoxville.

MICHIGAN DEMOCRATS.

Plenty of Candidates for Governor in the Field.

Detroit, Mich., July 30.—The Democratic state convention has an abundance of candidates from which to make its choice for governor, although few have declared themselves as willing to accept the nomination.

Among the openly avowed candidates are Charles R. Sligh of Grand Rapids and Senator James W. Helms of Adrian, both of whom are assured of considerable support. Justin R. Whitling of St. Clair, who once before has made the race for governor, also is likely to receive a goodly number of votes, although he has declared he is not a candidate. His friends, however, believe that when the decisive vote comes he will be found to be in the lead. B. J. Brown, a leading lawyer of the upper peninsula, has the support of the Menominee county delegates and probably will have other friends from that part of the state.

There is absolutely no talk about candidates for the minor offices on the ticket.

The convention will be called to order at 4 p. m. in Light Guard armory. Alfred Lucking of Detroit will be the temporary chairman.

INDIAN RAID IS DUE TO HUNGER

Two Women and Five Men Killed in Fierce Fight at a Ranch.

Tucson, Ariz., July 30.—Driven to desperation by hunger and thirst a band of Yaquis, nearly half of them women, swooped down upon the Carmen ranch near Hermosillo and a fierce and bloody battle followed. The women fought with the ferocity of wild animals, and when a patrol of Mexican troops galloped down to the rescue two of the women and five of the men lay dead. The Yaquis were completely overwhelmed and were compelled to surrender.

ATTEMPT TO WRECK A TRAIN

Ties Piled on the Track Break the Engine Pilot.

Gilman, Ill., July 30.—A third attempt within two months was made to wreck the New Orleans limited on the Illinois Central north of Danforth. Half a dozen ties were placed on the track, into which Engineer Burns ran his engine before seeing them. The pilot of the engine was wrecked, but no further damage was done.

BIG FLOUR MILL IS WRECKED.

Boiler Explosion Kills One Man and Ruins Plant at Salem, Ill.

Salem, Ill., July 30.—The boilers at the large brick flouring mill of Senator Hull and William Draper exploded, demolishing the building and killing the engineer. The mill was located near the Baltimore & Ohio Southwestern road depot and a passenger train was on the track at the time of the explosion. One of the cars was badly damaged. The depot was also considerably injured. The damage aggregates several thousand dollars.

MAYOR JOHNSON LOSES A SUIT

Court Refuses to Compel County Auditor to Levy Assessment.

Cleveland, O., July 30.—Judge Phillips of the common pleas court rendered a decision against Mayor Johnson and the city of Cleveland in the mandamus proceedings brought to compel County Auditor Craig to put the \$18,000,000 additional tax assessed by the city board of equalization against five big local corporations on the tax list. Judge Phillips held that the court had no authority in the matter.

ST. PAUL ROAD WINS BIG SUIT

Court Upholds Milwaukee & St. Paul in \$2,000,000 Case.

Madison, Wis., July 30.—Judge Bunn of the federal court of the western district of Wisconsin handed down a decision dismissing the complaint in the \$2,000,000 suit of Albert C. Gunnison, George A. Bright and Howard J. Forker, all of New York city, against the Chicago, Milwaukee & St. Paul Railroad company and G. Hilton Scribner, trustee. The suit was brought to recover the value of old bonds.

Five Firemen Injured.

Pittsburg, July 30.—Fire in the De Noon Brothers' paint store and warehouse caused \$85,000 loss. Lieutenant Donald Leech, Cornelius Buckley, Dan Gallagher, Will Reese and William Dalzell, firemen, were injured by broken glass and explosions of burning oil.

Pastor and Boy Drown.

De Graft, O., July 30.—Rev. W. H. Leatherman, pastor of the Methodist Episcopal church, while camping with a party of boys near here, was drowned while endeavoring to save Earl Needham, aged 12, who also perished.

Carnegie Refuses Compromise.

Richmond, Va., July 30.—Andrew Carnegie has declined the proposition submitted to him by the special committee representing the art societies of Richmond to give the \$100,000 he proposed to donate to a public library towards a fund for the erection of a building to be the home of the fine arts, which should include a library.

Refuses Library Injunction.

Rockford, Ill., July 30.—Judge Charles H. Donnelly of the circuit court has denied the petition of the east side residents for a temporary order restraining the Rockford city council from proceeding with the erection of the Carnegie library building on the west side of the river.

Secures Coal Land.

Litchfield, Ill., July 30.—A. G. Simpson of New York, representing an eastern syndicate with a capital of \$1,500,000, has secured options on the coal under 25,000 acres of land in Montgomery and Cassopolis counties, and is attempting to secure about 5,000 acres or more.

Rob and Kill Postmaster.

Evansville, Ind., July 30.—L. D. Zimmermann, postmaster for a quarter of a century at Lynnville, Warren county, was fatally shot by two robbers, who secured over \$500 in money and made their escape on a hand car.

Refuses to Try Feud Case.

Frankfort, Ky., July 30.—Alle W. Young of Montgomery county, whom Gov. Beckham appointed as special judge to go to Breathitt county and sit in the Cockrell-Hargis feud murder case, has declined to serve.

Kaiser to Visit Czar.

Berlin, July 30.—The National Zeitung states the Kaiser will visit the czar between the 6th and 8th of August in the roadstead at Revel on the occasion of the Russian naval maneuvers.

Shot by Stepson.

Piggott, Ark., July 30.—H. L. Hinkley was called out of his house at Crockett and shot dead by Edgar Williams, his stepson. Williams has not been arrested.

Queen's Tender Heart.

Queen Alexandra has had posted in many omnibuses placards requesting passengers not to require the stoppage of the vehicle more often than is absolutely necessary and thus relieve the horses as much as possible of the tremendous strain of restarting.

Difference in Audiences.

Mrs. Howard Kingscote, the English novelist, says that American audiences are anxious to hear facts, while English audiences demand to be amused.

FORM GIGANTIC COMBINE IN OIL

MOST POWERFUL TRUST OF ALL

Rockefeller, Rothschild and Nobel Join Hands and Organize the Greatest Selling Pool in the History of Trade—Czar Is Provoked.

London, July 30.—A combine more gigantic than any ever conceived has been effected, uniting into one trust all the great oil interests in the world. The three monster oil interests of Rockefeller, Rothschild and Nobel, it is said, have entered into a working agreement. The Daily Mail says: "Thus, without any publicity, the greatest trust the world has ever seen has sprung into being."

"This combination has been hinted at in messages from Batoum and Moscow, and it has been more clearly shown in the offers made to Russian oil exporters by representatives of the Nobel and Rothschild interests for the absorption of the whole of their output."

Russian Exporters Fight.

"The exporters have been forbidden to sell through the agencies of these interests at a price arranged by them, or to fight the combined forces of the three oil giants. This offer was made openly and with the idea of maintaining prices, and it has been refused, the Russian exporters preferring to fight."

"It was doubtless this combine which induced the Russian government to issue invitations to an anti-trust conference. The spokesmen of combines declare it means a fight to the death, and the independent exporters cannot hope to win."

Control the Output.

Rockefeller, Nobel and Rothschild control the artificial light used by 80 per cent of the world's civilized people. Of the petroleum production of the world John D. Rockefeller controls 73 per cent of the refined article. Of the remaining 27 per cent 20 per cent is in the hands of the two European oil kings, who are now reported to have combined with him.

The total value of the annual production of oil from the wells controlled by Rockefeller, Nobel and Rothschild is estimated at \$125,000,000. The total capitalization of the companies in which they are the principal stockholders is about \$150,000,000, of which \$100,000,000 is the capital of the Standard Oil company.

The wells of the Standard company are located in the United States; the wells of the Nobels in Russia, and those of the Rothschilds in Russia, China and other parts of Asia.

The value of the properties of the three oil kings is estimated at \$1,000,000,000.

Russia Depends on Oil.

The Standard Oil company controls 95 per cent of the oil business in all its branches in the United States, the 5 per cent being represented by the Texas, California and other fields not altogether in the control of the Standard company.

The Nobel Oil company supplies Russia with practically its only illuminant, gas and electricity being the illuminant of but 5 per cent of its people, and with the Standard Oil and the Rothschild companies controls the oil markets of Europe and Asia.

The Nobel oil fields are located near Baku, Russia. They are managed by the son of Ludwig Nobel, who founded the business in 1879. He was a brother of Alfred Nobel, the discoverer of dynamite, whose will instituted a series of prizes to be awarded annually to men who make the greatest achievements of the year in science and literature.

The New York lunacy commission will erect a pavilion for the insane at Bellevue and two reception hospitals.

OVERBURDENED.

The Egyptian woman looks greatly overburdened, and yet the physical burdens she carries will not compare with the burdens borne by many an American woman. There is no burden like the burden of disease. The woman who suffers from inflammation or ulceration, bearing-down pains, weak back and nervousness, bears a burden which crushes her very life.

Every woman should know that Dr. Pierce's Favorite Prescription makes weak women strong and sick women well. It cures the womanly diseases which cause weakness and feebleness. It quickens the nerves, cures the aching back and throbbing head, and gives strength for wifely cares and maternal duties.

"When I first wrote to you I was in a bad condition, and had almost given up," says Mrs. Della Snider, of Wilkesville, Vinton Co., Ohio. "I was suffering from female trouble of the worst kind; I couldn't eat anything without suffering great distress; throat hurt me by spells; was nervous and weak. Had numb hands and arms, heart trouble, pains all through my body and aching head and neck. It seemed that I could not work at all. I got Dr. Pierce's medicine and took it as directed, and the first week it began to help me. I took three bottles and am glad to say that it did me more good than all the other medicine I ever took. I feel better than I have for years."

Dr. Pierce's Medical Adviser, in paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only, or if cloth bound volume is desired, send 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

SCROFULA

I bequeath to my children Scrofula with all its attendant horrors, humiliation and suffering. This is a strange legacy to leave to posterity; a heavy burden to place upon the shoulders of the young.

This treacherous disease dwarfs the body and hinders the growth and development of the faculties, and the child born of blood poison, or scrofula-tainted parentage, is poorly equipped for life's duties.

Scrofula is a disease with numerous and varied symptoms; enlarged glands or tumors about the neck and armpits, catarrh of the head, weak eyes and dreadful skin eruptions upon different parts of the body show the presence of tubercular or scrofulous matter in the blood. This dangerous and stealthy disease entrenches itself securely in the system and attacks the bones and tissues, destroys the red corpuscles of the blood, resulting in white swelling, a pallid, waxy appearance of the skin, loss of strength and a gradual wasting away of the body.

S. S. S. combines both purifying and tonic properties, and is guaranteed entirely vegetable, making it the ideal remedy in all scrofulous affections. It purifies the deteriorated blood, makes it rich and strong and a complete and permanent cure is soon effected. S. S. S. improves the digestion and assimilation of food, restores the lost properties to the blood and quickens the circulation, bringing a healthy color to the skin and vigor to the weak and emaciated body.

Write us about your case and our physicians will cheerfully advise and help you in every possible way to regain your health. Book on blood and skin diseases free.

THE THREE HUNDRED.

Emperor William is to present to three hundred well meaning American citizens a medal and a piece of ribbon, in commemoration of the fact that they helped to entertain the Emperor's brother, Prince Henry, while he was on an official visit to this bit of bronze or silver, will also confer a German title upon the holder. Think of it, three hundred enlightened Americans will receive these medals and will prize them for the sake of the donor. No, it will not be for the sake of the honor that goes with it, but simply because they were hospitable to a visiting prince.

The Kansas City Star, commenting on this proposition, says: "The holders will prize the bits of metal, because the owner once met a prince and because the owner will seem to be on some sort of intimacy with an emperor. Of course, those who secure prizes, will repudiate any such feeling indignantly and will value the decoration simply as a courteous recognition of their politeness towards the representative of the German Emperor. And the odd thing will be, that they will actually persuade themselves into believing what they tell."

The Kansas City Star puts the matter aptly. It places the American people upon the level of the Anglo-Americans, who go to Europe, and make their homes after the customs and habits of their adopted country, and very often renouncing all claim to American citizenship. These hero worshippers are not Americans. They are repudiated by all good citizens and are not worthy consideration. But take the present case. Here are three hundred well read, well educated citizens, who will receive the gift of the German Emperor and will treasure it for the honor and rank it carries.

Men like Roosevelt can stand such things. He is so typically an American, in the broadest sense of the word, that such an honor is but an empty compliment to him. He will respect the Emperor for having been thoughtful enough to show his appreciation in the manner best known to European courts, but will not consider the matter more.

But all men are not like Roosevelt. All men are not so great, have not so broad a mind, nor so true an appreciation of America and the greatness of Americans. Some it will spoil and place them on the same scale as the American who deserts his country for empty honors at the hand of some foreign power's ruler.

Emperor William's gift is a pleasing one to the nation at large. It shows that the mighty German Emperor recognizes in the American people the dominating factor in the world, a factor not to be overlooked. By presenting the men who entertained his brother, with a medal, he does all in his power to show his appreciation of their courtesy to the German nation. William is all right, it is the fool American who glories in the honor who is censured.

THE NEWMAN FACTORY

Every legitimate manufacturing industry that can be induced to locate in the city, is a benefit to the place and is entitled to every encouragement. The Newman shoe factory, which has been under discussion for the past few days and which was considered by the business men last evening, has the appearance of being a safe investment and is the nucleus of a business which is capable of large development.

Mr. Newman is a Wisconsin man, and is not a stranger to Wisconsin people. His experience as a shoe manufacturer, while not extensive, has been successful, and his reasons for wanting to locate in Janesville, seem plausible. If the committee appointed to investigate the business, feel warranted in recommending the people to take hold of it, there should be no trouble in finding the money. If the investment is safe, it is better than speculation for the investor and infinitely better for the town.

Janesville is entitled to grow and if it does to any great extent, it must be through manufacturing industries. As a farming center, the city has reached the limit. The land throughout the country is producing to its

full capacity and the population of the county can only be increased through its cities. Beloit has set the pace and in five years will be the leading city, unless Janesville shows a liberal disposition. The line city is not as well equipped to handle business as the Bower city and while she is entitled to all of the success attained, there is no reason why Janesville should not lead.

The Newman factory has passed the experimental stage and is in position to grow. The proposition is entitled to careful investigation, to say the least. If it stands the test, as it doubtless will, no time should be lost in moving the plant to Janesville.

New York pie makers have struck. From the president down to the meanest street gamin, a general uprising should take place and a public demonstration be made against allowing such a strike. We can stand coal strikes, railroad strikes, high prices of meat, scarcity of vegetables, but when it comes to pie it is the time to draw a line on labor demonstrations. Why pie is the American national dish. The decidedly unique and characteristic dish of the American people and like the eagle on the dollar it should be free from any labor demonstration.

General Bragg, the grizzled hero of the Civil war, the idol of the old soldiers today, wrote an unfortunate letter to his wife about the Cubans. His wife showed the letter to a newspaper man and he published. Now the poor general must suffer for his wife's mistake. The question is before the President and it is probable that General Bragg will be removed from Havana and sent to some other city, where they do not need "whistles made out of pigs' tails."

Tickets for the king's coronation read only "Coronation of their Majesties, 1902," giving no date. This has led to an increase in the betting on the possibility of the postponement. Just think if the United States had been overrun with betting at the time of McKinley's assassination on the possibilities of his dying or not? Yet England has been established several centuries before the United States and they still stick to feudal customs.

Football talk is now on the increase. Papers have columns filled with the prospects of teams for the coming fall contests. Prospective players have already begun their long training vigil, to end with the Thanksgiving game or sooner, if they are disqualified or injured. From now on football will be a suitable topic for conversation for any young lady who is in doubt just what to say to her college admirer, when he calls.

The recent earthquake shocks on the Pacific coast recall the story of an elderly Wisconsin lady who was staying at Coronada beach, some years ago when a similar shock was felt. She is slightly deaf and did not hear the rumble. Being in a position so that she saw only her bed move, not the outside world she conceived the idea that there was a man under it and started out bravely to prod him with an umbrella. As she tells the story herself it is permissible to print it.

Secretary of War Root rode seventy miles in a mule wagon last week just to get a taste of what army life was and now he uses a pneumatic cushion when he sits down and then does it very cautiously. Doubtless he will echo Grant's famous remark about war. "Do you remember it?"

General Horace Porter has been given a medal for bravery at Chancellorsville. The wheels of recognition are slow and since General Porter fought it out on that bloody battlefield, another war has been fought and more men have gained new honors for themselves. Still congress votes Porter a medal and he gets it.

A Chicago contractor names two aldermen who were guilty of taking bribes for the passing of an ordinance. Now the aldermen say that the contractor himself offered them a bribe and are ready to prove it. May be the contractor wishes he had kept quiet.

Col. Arthur Lynch, soldier of fortune just now in misfortune, in an English jail, may receive harsh treatment at the hands of his English brothers before he gets through. He is charged with treason and if freed it will only be upon a technicality.

Newspaper men are rejoicing over the fact that the new offices of the president in Washington are to have the finest equipped quarters, for the newspaper fraternity that are known.

There was a sea fight off Panama the other day and there was not a single war correspondent present. Say but those South American republics are not at all enterprising.

PRESS COMMENT

Waukesha Freeman: The war is not over yet. Please remember that.

Eau Claire Leader: When the people of Oshkosh get their castor oil factory started they can use it as a conversational aperient.

Milwaukee Journal: Chairman Bryant can now afford to take a long rest while people try his letter on a corn-shredder.

Milwaukee Wisconsin: As chairman of the Republican state central committee, General Bryant has been badly advised.

Lowell Courier: That dentist who refused to sublet his office to the President isn't looking for a pull with the administration.

Philadelphia Ledger: A big naval battle off Panama and no war correspondents present. Verily, the Latin-Americans are away behind the times.

Milwaukee Sentinel: Now that a tugboat has been named the Mary McLane, the Montana authoress appears to have enjoyed all the rewards of fame.

Appleton Crescent: Oshkosh is not represented on the state ticket. Shades of Demosthenes, where were John Strange and the incorruptible Attorney Hicks? How sad.

Waupaca Post: The Madison Journal says that Spooner was slapped in the zenith of his achievements. That is not the usual place where punishment is administered.

Philadelphia Record: The discovery of sulphuric acid in some of the imports of German meats and "delicatessen" will serve as a set off to the boracic acid in American exports to Germany.

Racine Journal: What is the use of all this strenuous business when some things in their nature cannot be carried out. There is need for an all fired lot of conservatism rather than insistence, only later to tone things down.

Two Rivers Chronicle: All Rot Rose is a bird. But he is an ornithological hybrid—a cross between a peacock and a hawk—and as such has an occasional admirer among certain Democrats who have a fancy for the gaudy and the gamey.

Free Press: Dr. Usher's latest conclusion is that LaFollette cannot be beaten. It is surprising how long it takes the doctor to reach this interesting conclusion and how much valuable time and brain matter he has wasted in trying to reach a different conclusion.

Shawano Journal: The Democrats have been soaking up much thin hope on account of the complete turn-down of the Stalwarts in the state convention and their papers are already claiming up to 50,000 Republican votes next fall. "The drowning man, etc."

Racine Journal: The Villas letter to the Democratic state committee is attracting attention and his advice to join hands for a reunited party is leading to calls for him to become a candidate for governor. It may be opening the road to a senatorial nomination.

Monroe Sentinel: The spell is broken. The people will return to first principles again, and the Stalwart cause will yet triumph in a supreme test of individual loyalty to the party and its candidates. Spooner will be vindicated at the polls and the candidate of the Republican party will be elected.

Madison Journal: Again our love for Col. Bird inclines our heart to the suggestion that he stand for governor. There is something about the colonel's tall, graceful figure, his long eloquent arms, his sweet, far-reaching voice as he takes an audience of the dear common people into his confidence from a burnt stump in Price county that appeals to us. Wouldn't the colonel do LaFollette brown to the queen's taste—we can almost hear that down east twang as it traverses four counties to Superior's violet sea? Rah for Col. Bird.

Oshkosh Northwestern: The people of Washington are flattered themselves that the remarkable story of Bandit Tracy is a good advertisement of the growing timber in that section. The fact that Tracy has repeatedly been enabled to elude his pursuers by taking to the dense woods where it seems to be impossible to follow him with any chance of discovering his hiding places is regarded as convincing evidence that the virgin forests of that part of the country are capable of furnishing a grand opportunity for the capitalist who is looking for timber capable of being utilized by sawmills and manufactories.

FOUR OREGON, ILLINOIS YOUNG
PEOPLE ON CANOE TRIP

ONE HUNDRED-MILE VOYAGE

Party Leaves Cotton Mills for Home
via the Rock River
Route.

With pieces of wrapping paper still clinging to the freshly varnished sides of their canoes, a party of four young people, hailing from Oregon, Ill., launched their light craft near the Rock River Wooden Mills and began a five days' trip down the river to their homes. If their plans do not miscarry, they will cover about twenty miles a day and spend the nights in hotels along the way. One member of the crew of each bark, is a young lady.

Four in Party.

At half past nine this morning, Miss Laughlin, Miss Darling, E. A. Laughlin and R. T. Laughlin, of Oregon, left the hotel where they had spent the night in this city and were taken to the spot which had been chosen for the beginning of their trip and where their canoes had already been unloaded. By ten o'clock the waterproof bags containing their baggage, lunch hampers, and the waterproof cushions, had all been adjusted in the canoes, the occupants of each boat were in their place and the party were off.

Hundred-Mile Trip.

The young people have calculated the distance from this city to their homes by river as between eighty-five and one hundred miles, and believe that by a moderate rate of paddling they will be able to reach their destination at some time Saturday or Sunday, stopping along the way at Beloit, Rockford and other towns.

Neat Craft.

The boats which are to be used by the explorers are the latest model of open canoes, built by the Racine Boat Co. They are sixteen feet in length, and canvas covered, with varnished woodwork and nickel trimmings. Each is provided with a double and a single paddle, the latter for the use of the fair occupants of the canoes, but it is not expected that their efforts toward the propelling of the crafts will be very strenuous.

Fresh From Works.

One of the canoes was sent here direct from the factory at Racine, while the other was shipped from Oregon, wrapped in paper, as they were sent out from the works. It was believed that one was leaking to a slight extent, but the fondest hopes were expressed that this theory might prove false.

Simple Equipment.

The baggage carried by the boats was not at all elaborate, including only what was considered essential, and the simplicity of the equipment was especially to be marvelled at when it is remembered that there are two young ladies in the party. Everything was carried in waterproof bags, and the cushions on which the travellers rested were faced with oiled cloth.

In Khaki Uniform

Khaki was the uniform chosen by one of the young men as best adapted to the exigencies of the trip, while the other three adventurers were clothed in the conventional summer resort garb, ready for any wear or tear.

TRAINS DELAYED BY SERIOUS WRECK

Head End Collision Occurs on the
Milwaukee Road at Brookfield
Junction This Morning.

The passenger train from Milwaukee to Mineral Point due here at 10:15 a. m., on the St. Paul road, was about two hours late today on account of a disastrous head-end collision between the Waukesha scout and a freight train at Brookfield Junction, this morning, which blocked the tracks.

The details of the accident received here today were quite meager. It was learned however that the engineer and fireman on the passenger train and the fireman on the freight train were killed and a number of passengers quite badly shaken up and bruised.

The cause of the accident was not given. Brookfield Junction is where the La Crosse division crosses the Prairie du Chien division and all trains going to Milwaukee run into the city over this line from Brookfield.

WEDDING BELLS TO RING

Miss Lowell to Become the Bride of C. V. Hibbard of Racine

Invitations have been issued for the marriage of Miss Sue E. Lowell, of this city, and C. V. Hibbard, of Racine. The happy event will take place at the home of the bride's parents, Mr and Mrs. E. W. Lowell, Racine street, Tuesday afternoon, August the twelfth, at four o'clock. Miss Lowell and Mr. Hibbard were classmates at the University of Wisconsin, both graduating in the class of 1900. Since graduation they have been engaged in similar work. Miss Lowell was secretary of the Young Woman's Christian association at the University of Wisconsin during the past year and for two years past Mr. Hibbard has been secretary of the Young Men's Christian Association at Northwestern university.

WILL NOT MOVE

Masons Decide To Stay Where They Are For Ten Years More

A joint session of Western Star lodge, No. 14, and Janesville lodge, No. 55, F. and A. M., was held last evening at Masonic hall. The principal business to come before the meeting was the question of a new lease of the lodge rooms. The trustees of the lodges were instructed to make a new lease of the present quarters with Mr. Carle, which is to run for ten years. They also decided to refurbish and refit the rooms and new carpets and other necessary articles will be purchased for the rooms. It was the intention of Mr. Carle, if the Masons moved out to remodel the building and make a modern structure of it. Under the existing conditions this will not be done and the building will be left as it is outside of a few minor changes in the second story.

PLAN OUTING AT DELAVER LAKE

FOR BOYS OF Y. M. C. A. JUNIOR
DEPARTMENT.

ARE TO ENJOY LIFE IN CAMP

Dr. F. T. Richards and Secretary
J. C. Kline Will Have Party
In Charge.

August 12 has been finally decided upon as the date when the Junior department of the city Y. M. C. A. will go into camp, as has been their custom for several years. The Delavan assembly grounds will be the spot where the youngsters will pitch their tents, and for ten days they will revel in the freedom that will be allowed them under the genial management of Dr. F. T. Richards and Secretary J. C. Kline.

In Seven Tents

Tents for the accommodation of the boys will be pitched on the land owned by the association of Janesville, and will probably be seven in number. The general assembly dining hall will not be used this year but private dining and cooking tents will be provided for the party. A professional cook will accompany them. A home tent will also be erected which will be provided with reading matter, writing material, and other conveniences for the use of the boys during the day.

Some Will Wheel

Bicycles, carriages and a dthle railroad will be pressed into service in enabling the campers to reach the grounds and the tents and the other camp equipment will be rented on the grounds, but the bedding and some of the conveniences of camp life will be taken from this city.

The Program

Revels will be blown at 6:30 each morning and from that time until lights out at 9:30 the boys will be under a regularly laid down schedule for the day. Most of the day will be free for boating, fishing and games of all kinds. At 10:00 in the morning the whole party will make for the water at the same time. The boys are enthusiastic over the fact that they are to have the use, under proper supervision, of the two sail boats belonging to F. F. Lewis, the president of the association, who has a cottage on the lake. One of their is one of the fastest sailors on the lake.

Special Days

Special programs will be provided for certain days. On one day there will be track and field events, on another a trip to Lake Geneva to the Yerkes Observatory, and on others excursions around the lake.

Number Unknown

Dr. F. T. Richards, who is at the head of the Junior Department work, has made no general canvass of the situation as yet, so that it is unknown how many there will be among the campers. Some will probably not come to a decision whether to stay or go until the last moment. The president of the department and the secretary of the local association will be in charge of the outing.

NEWS OF THE CITY IN BRIEF.

Wood Workers: The wood workers will hold an invitation dance up the river next Tuesday evening.

Large Number Present: The picnic given by the Loan band at Burr Springs yesterday was well attended.

Miss Miriam Tanberg celebrated her sixth birthday yesterday afternoon. A number of her little friends spent a very pleasant afternoon with her.

Bad Boys Swim: Officer Fanning rounded up a lot of boys who were swimming in the river inside the city limits without proper clothing. They promised Chief Hogan it would not occur again and were let go.

File Amendments: The amendment articles of the N. B. Robinson Brewing Co. were filed in the Register of Deeds office yesterday. The capital stock is increased from three to forty thousand. E. B. Perkins is president and F. B. Williams secretary.

Goes To Chicago: Offices: Phil Casford, an employee of the St. Paul road in this city has been promoted to a position in the general freight department of the road in Chicago. Mr. Casford was at Chicago during the strike and the officers of the company took quite a liking to him. He will go to Chicago on Thursday night.

Fire Alarm: An alarm turned in from North Bluff street about ten o'clock this morning called out a part of the fire department, who arrived in time to learn that the fire had been already extinguished. The chemical apparatus was taken in but was found to be unnecessary. A gasoline stove for some unknown reason suddenly flared up setting ablaze the curtains, a calendar, and some other light hangings on the wall near the stove. Flour was applied immediately, and although the combination of flour and water on the floor gave a general air of disaster to the room there was no actual damage done. The house is occupied by Miss Hattie S. George.

Dissolution Notice

The firm of Fathers & Hilt is dissolved by mutual consent and the business will be continued by Wm. Fathers at 191 North Main street, who assumes all liabilities and collects all bills of the firm.

OLDEST EMPLOYE ON C. & N. W. ROAD

STEPHEN HOTELLING HAS RE-
TIRED FROM ACTIVE SERVICE.

HE WILL RECEIVE A PENSION

Has Been in the Employ of the Northwestern Company Nearly
Half a Century.

Stephen Hotelling, of this city, completed a long and honorable career as a locomotive engineer on the Northwestern yesterday noon and on August 1 he will go on the rolls as a pensioner, under the rules adopted by the road some time ago.

It is thought that Mr. Hotelling is the oldest employee in the length of service on the pay roll of the company and there is now no one in the employ of the company that was there when he began railroad work.

Long Term of Service

He has been with the road from its start and helped to build some portions of it. When he started work in 1854, it was known as the Chicago & State Line road and later when extended to Milwaukee was known as the Milwaukee and State Line road. He started firing on this line in 1855 and fired until 1857, when he was transferred to the Wisconsin division and fired a run between Chicago and Janesville. Two years later when the road was extended to Oshkosh he was given an engine and has handled one since that time.

No Serious Accident

During his long term of service he has never had a serious accident and has never had a passenger under his care injured. He has had runs in all parts of the division from Chicago to Green Bay, his last run being from Janesville to Green Bay, the Chicago end of the run being handled by Engineer F. C. McLean.

An Honored Citizen

Mr. Hotelling has lived in Janesville for over forty years and has always been considered as one of the most substantial men of the town. He stands high in Masonic circles and has hundreds of friends both here and in other cities that will congratulate him on the successful ending of his labors and hope he will live many years to enjoy the fruits of his industry. His pension will amount to \$52.77 per month.

GALICIAN TROUBLE SPREADING

Uprising of Farm Laborers is Becoming More Serious.

Lemberg, Galicia, Austria, July 30.—The strike in East Galicia of over 100,000 agricultural laborers, most of them Russians, and which developed into a rising against the landed proprietors of the district, is becoming more serious. Gendarmes attacked the strikers and were attacked by them in return. Crops and farms have been destroyed. Several peasants have been wounded and others arrested.

BANKER SPALDING LEAVES JOLIET WON BY A WIFE'S DEVOTION

Mrs. Spalding Cheers Her Husband During His Long Incarceration and His Attorney Has Confidence That He Will Be Freed.

Chicago, July 29.—Charles Warren Spalding, who was released on a habeas corpus writ yesterday from the Joliet penitentiary, where he was imprisoned nearly five years ago, now occupies cell No. 521 in the Cook county jail, where he will remain until the final hearing at 9:30 o'clock to-morrow morning. His attorney, who succeeded in getting the writ, declares the convicted bank president will be discharged.

It was 4:30 o'clock yesterday afternoon when a quartet alighted from an Alton train in the Union station. They were inconspicuous, except for the radiant smiles and animation of a slight and happy woman. She had fought over four years for the liberty of the man she married while he was a prisoner, and whom she had loved while he was yet free and prominent in the finances of Chicago.

Cheered by Wife.
"At last we are home. How good it all seems," she said. She was the first to alight and as she reached out to him the white and tiny hand which had held the reins over Golden Locks so many times in their drives over the boulevards of Chicago, Mrs. Spalding uttered more words of cheer to her husband. The others in the party were Attorney W. G. Anderson and Jailer Whitman.

A light overcoat thrown over his arm, and carrying a light traveling bag, the former bank president stepped quickly from the train, and the four boarded a car at Canal and Adams street and hastened toward the county jail. He wore the same summer suit in which he was attired when he was incarcerated. Mrs. Louise Ervin Spalding brought it with her to the penitentiary when she hastened there with the papers yesterday noon.

Part in Jailer's Office.
The reunited pair shared a seat in the street car, while the prisoner talked freely of his plans for the future. Her face was wreathed in smiles until they parted in Jailer Whitman's office. Then she went home.

"Just as soon as I get my liberty I intend to investigate the affairs of the bank," said the ex-president of the Globe Savings bank. "I want to find out what has been done with the assets of the bank. There was enough there to pay dollar for dollar and 50 per cent of the stock. I will pick up the loose ends and see what I can make out of it. It has been to the interests of some people to keep me out of the way, but I propose now to find out for myself what has become of all that money."

"My home, of course, will be in Chicago, with my wife's people, and I may go east after a bit. I am going to start right in. I have had a long rest, as I call it, and never was in better health. The rigorous rules of the institution are conducive to good habits, and have helped me to preserve my robust health."

Has Faith in the Future.
"My faithful wife, however, needs a rest, and she shall have it. I have lost five of the best years of my life, but there still remain a number in which I can regain something."

He was told that it had been said he had secreted a large sum of money before the failure of the bank, and that he now could make use of it. He replied that the books had been thoroughly gone over and that every dollar had been accounted for.

In spite of his assertion that his health is good, Spalding is not the robust man he was when he was sentenced. His hair is silvery white, while his face is somewhat drawn, and he has a pallid appearance. He calls attention to the fit of his clothing, which, he said with feeling, he filled out just as well as he did five years ago. He was 59 years of age June 9.

ELIZABETH D. VILAS IS A BRIDE

Senator's Niece Married to G. E. Gary of Virginia in Wisconsin.

Madison, Wis., July 30.—Miss Elizabeth D. Vilas, daughter of the late Levi D. Vilas of Minneapolis and niece of ex-Senator William F. Vilas of this city, was married to G. E. Gary of Richmond, Va. The wedding occurred at the home of the bride's mother, with only a limited number of relatives and intimate friends present. Miss Katherine Vilas, sister of the bride, was maid of honor and Henry Buell of New York, cousin of the groom, best man. Rev. A. W. Stalker, pastor of the Methodist Episcopal church, officiated.

Boers Return to Africa.
Hamilton, Bermuda, July 30.—The steamship Roslyn Castle sailed for South Africa with the first party of returning Boers, numbering 350 persons, on board.

To Extend London Tramways.
London, July 30.—The London county council has sanctioned large extensions to the tramway system of London, costing nearly £2,000,000.

His Plea for Mercy.
"You admit you stole the melons?" said the judge. "Oh, yes, sub, I stole um!" "And yet you ask for mercy?" "Yes, sub; kaze de white man kotched me 'fo' I had a chance ter eat um!"—Atlanta Constitution.

PRESS COMMENT

Marquette Eagle: LaFollette leaders now blame Senator Spooner for the failure of their radical ideas to become laws. Spooner never bothered his head with them.

Milwaukee News: While it is true a rose under any other name would be sweet, it also should not be forgotten that the Republican ram is not to be tamed with flowers and that the best way to bring it to time is to sidestep and let it butt up against the Democratic Wall.

Wautoma Argus: The action of cessful politician, a successful leader? Why, he is the fellow who watches closely, and finds out which way the procession is headed; then hikes him across-lots to get in the band wagon. If very successful he gets on the seat with the driver.

Wautoma Sentinel: The action of the state convention in refusing to pass a resolution endorsing Senator Spooner and demanding his re-election without conditions was a very unwise move and one that does not meet with the approval of a large majority of the Republican voters of Wisconsin.

Mineral Point Tribune: Despite the disadvantage at which Senator Spooner is placed by the action of his unwise friends, the Republicans of Wisconsin have no fear that he will interfere to defeat the will of the party as to state policies, and confidently hope that he may be so situated as to accept re-election at their hands.

Green Bay Gazette: It is true that the majority drafts the party platform and it is for the minority to accept or reject it. A wise majority, however, would use care instead of personal prejudice in drawing up its declaration of principles in order that it may be so sound as to attract instead of repelling voters. In the present case it is probable that after the first feeling of soreness has passed the Stalwarts will gradually fall into line and vote the Republican ticket this fall. Republicans as a rule, are not bolters. The interests of the national party, representing principles which stand for national progress and prosperity, are involved and a petty state quarrel should not be allowed to blind the members of the party to their duties.

INDUSTRIES OUT IN SPRING BROOK

ALL BUSINESS IS HUMMING

Inter-Urban—Button Factory—Pickle Industry and Other Factories Are Booming.

The rails of the interurban road through Spring Brook have been laid as far as the Choate-Hollister factory, and the poles set and wires strung for an equal distance. Through out the system there will be double trolley wires. One advantage of this system is that it will permit two cars to pass on side tracks at high speed. In addition to this it will give an increased power where there are no service wires.

Five Wires
The two wires are strung through-out on iron braces reaching out from a single pole. On the same pole, placed above the trolley wire arm there is an ordinary telephone cross bar with glass insulators, three in number. On one of them will be placed the service wire and on the other two the telephone wires of the company.

Grading Nearly Done
The grading near the Table Factory has been nearly completed and when that is done the work of grading will be out of the way and the Hayes Bros. grading gang will be put back on the Cement Past factory work.

Conveniently Distributed
There have been unloaded at the building by the canning factory about twenty-three foot spools of trolley wire to be used by the interurban road, as well as a large quantity of rails. The majority of the rails for the work have, however, been distributed along the line from this city to Beloit, at distances where it will be easiest to handle them.

Have Painted
The appearance of the pearl button factory has been improved by the addition of a coat of paint. This is only an outward sign of the prosperity which is attending the constantly growing business of that concern. The number of employees, the quantity of the work turned out, as well as the convenience of the factory have all been increased by the change to the Spring Brook quarters.

Pickles Coming
Consignments of cucumbers from the surrounding receiving stations are being taken in daily at the canning factory. The regular season's work has not yet begun and will not until about the fifteenth of the next month. At that time a large force of hands will be taken on, to handle the goods which should be coming in in good quantities by that date.

Goes to Hanover
Burnham Milman, who has been with the local factory, has gone to Hanover to take charge of the receiving station for P. Hohenadel, Jr., in that place. Mrs. Butler of Castville who is to take charge of the boarding house for the factory employees has not yet arrived, but will in time have everything in readiness when the work of the factory opens.

Ready For Work
At the electric car barns the repair shop is now nearly ready for all work that may come in. The late, drill press, and the other apparatus has been thoroughly overhauled and put in first class working condition, and pulley shafting is now being put in to operate the machinery.

Out at the North-western cut, where the electric road intersects, Foremen Welsh's men are still at the digging for the new bridge. The stone for the abutments is being shaped as rapidly as possible and will be ready to put in position as rapidly as needed. More car loads of stone will arrive at intervals of about a week from the Duck Creek quarries near Green Bay.

LOCAL DOCTORS AT MEDICAL MEETING

Dr. Pember is First Vice President and Dr. Mills is on the Official Board.

Dr. James Mills and Dr. J. F. Pember have returned home from Madison where they attended the annual meeting of the Central Milwaukee Medical society, Wednesday. Both gentlemen were honored by the society at the election of officers, Dr. Pember being chosen as first vice president and Dr. Mills being elected chairman of the board of censors. Dr. L. F. Bennett, of Beloit, was elected president of the association and Dr. S. C. Lacey of Footville, third vice president. Dr. C. S. Sheldon, of Madison, was re-elected secretary and treasurer.

Dr. Mills is also a member of the standing committee on obstetrics, Dr. W. H. Palmer of the committee on surgery and Dr. J. B. Whiting of the committee on ophthalmology and otology. Dr. Pember participated in the program at the meeting, being appointed to discuss a paper on "Entropionosis," presented by Dr. S. H. Mayer, of Monroe.

There were two sessions of the meeting, a morning session at 10 o'clock and an afternoon session following the banquet, which was served at the Park Hotel at 2 o'clock and which was one of the most enjoyable features of the meeting. The sessions were held in the capitol building.

the future of the shoe, before going further with the project. He did not think that \$15,000 was a big loan as against \$25,000 collateral and did not think it would be a good plan for Janesville to let it drop.
R. M. Bostwick
Robert M. Bostwick thought the

factory would be a good thing for the city if it was a success and had a future before it. President Carle after a few remarks on the way that the finances of the institution appeared to him, appointed D. W. Hayes and C. S. Jackman as a committee to go to Chicago and investigate the future of the shoe made by Mr. Newman. The meeting then adjourned subject to the call of the committee.

NOVEL OFFER TO YOUNG PEOPLE

Get Married Carnival Week and Secure \$100 Bonus Beside the Wife.

What some girls have, what all girls want, what old maids can't get—a model husband. If there is any young lady or gentleman in Rock county, who wants to get married and cannot find a sweet heart that will have them, all they want to do is to write to Mr. A. L. McIntosh, secretary of the Elks Carnival and he will do all in his power to secure the needed helpmate. Not only has he started a matrimonial bureau in connection with the carnival, but he is also agent for Mr. Berger, of the Carnival Co., to authorize the payment of \$100 to each couple married by Mayor Richardson publicly during the carnival week.

Six hundred dollars has been set aside by Mr. Berger for this purpose and now is the chance for any youth or maiden aspiring for a swell wedding with lots of people present to step up and secure the \$100 as well as be married for nothing.

Mr. McIntosh said this morning that there were to be several stands erected along the streets and the plan was to have one couple married each day. He also said that he would try and find girls for boys matrimonially inclined and vice versa. That is if they will let him know.

Mrs. Sarah F. Strow
Death came to Mrs. Sarah F. Strow this morning at 10 o'clock at the home of her daughter, Mrs. Edward Smith, 55 Dodge street. The end came peacefully and quite suddenly, although it was not entirely unexpected as Mrs. Strow had been confined to her bed for the past week with heart trouble. She had been in feeble health for the past five months. Deceased was born in Palermo, Oswego, Co., N. Y., and was seventy-eight years of age. She had resided in Wisconsin for forty years and for the past seventeen years she had made her home with her daughter in this city. She was a bright and lovable old lady and retained her faculties and active interest in life until within the past few days.

Deceased leaves one daughter, Mrs. Edward Smith and one son, George C. Strow, of Portland, Ore. Her son-in-law, Edward Smith, who was devoted to her, is in the northern part of the state and has been telegraphed for.

Funeral services will be held from the home Friday, the hour not having been definitely decided upon yet.

Martin Johnson
The remains of Martin Johnson, who died in Chicago, Saturday, arrived in the city yesterday at 11:15 and were taken direct to Oak Hill cemetery for interment. Rev. J. T. Henderson officiated at the services which were held at the grave. The pall bearers were Martin Halverson, Oliver Knudson, John Holt, Samuel Clemons, Chris Hanson and Charles Larson.

WOMAN HAS A RIGHT TO FIGHT

St. Louis Judge Encourages a Wife to Resent Vile Epithets.

St. Louis, July 20.—Judge Siderer of the first district police court is looked upon as the Solomon of the St. Louis bench. Recently he rendered a decision that a wife had the right to go through her husband's pockets, when the latter kept the purse strings tight in his own hands, doling out a miserable pittance for household necessities. Now he has supplanted this by deciding that a wife has the right to strike her husband when assailed with vile epithets.

PAUL VAN DER VOORT IS DEAD

Former Grand Army Commander Expires in Cuba.

Philadelphia, Pa., July 30.—Paul Van der Voort, past commander in chief of the Grand Army of the Republic, died at Puerto Principe, Cuba, of paralysis of the heart. He was born in Ohio in 1846. He enlisted for the three months' service in the Sixty-eighth Illinois Infantry and re-enlisted in Company M, Sixteenth Illinois cavalry, and was with his regiment in the Ninth and Twenty-third corps and the cavalry corps of the military division of the Mississippi.

ENGINEER KILLED AT ESCANABA

Relief Train Runs Into a Freight on a Siding.

Escanaba, Mich., July 30.—A wreck which cost Engineer John McKenna his life and seriously injured Engineer Tom Green occurred at the depot here. The early passenger train, drawn by Green, broke down at Naranta and McKenna was sent to his assistance. When Escanaba was reached the air failed to work and the passenger train plunged into a freight on the switch. McKenna jumped and it is supposed that his head struck the switch.

DWIGHT L. WING A BANKRUPT

Files Voluntary Petition in Federal Court at Springfield.

Springfield, Ill., July 30.—Dwight L. Wing filed a petition in bankruptcy in the United States District court. He scheduled liabilities of \$62,600, and available assets of \$400, though he also schedules shares of stock in sev-

eral railroad enterprises. Mr. Wing gives his residence as Springfield, though for the last several months he and family have resided in Peoria. Mr. Wing was formerly president of the St. Louis and Chicago railroad, which he built from Springfield to Litchfield.
